## EDUCATION

---

**BE Comp – VGEC,Ahmedabad (2005-2009)**

## SKILLS

---

Python (5 years)

PHP (10 years)

React (3 years)

Flutter (3 years)

Javascript (10 years)

Node.JS (2 years)

Wordpress (10 years)

SQL (10 years)

Nosql (2 years)

Django (2 years)

Data Analysis (5 years)

Machine Learning (1 year)

HTML/CSS – 10 years

Photoshop – 1 year

Bootstrap/Responsive – 5 years

Shopify – 2 years

Laravel – 2 years

Familiarity with Illustrator, Premier

Pro, Tensorflow, Azure, AWS

## **WORK EXPERIENCE**

---

### **SparkleandCo – Data Analyst and Lead Web Developer (2017-2025)**

Data Analysis, Ecommerce Web Development, Analytical Reports, Visualization

Python/PowerBI/Woocommerce/Shopify/PHP/SEO

### **30a – Data Analyst and Web Developer**

2017-2024

Web Development/Reporting/Database Queries/Plugin Development

Wordpress-Woocommerce/SQL/Python

### **Judtho**

Chess-Variant Website – One of my most interesting Project

Developed Online Version of site as well as technical version

Tech Stack – Javascript/Flutter/Python/React

## **Fencing Sydney Calculators**

Custom Complex Calculators for Fencing/Timber Quotes

Tech Stack – Javascript/Angular/PHP

## **Monte Carlo Simulators**

Random Number Generation and Data Visualization tool

Tech Stack – Python/Matplotlib

Besides these, I've completed 500+ other Projects – many of which were interesting and challenging..Please check my Upwork profile, PPH profile and Freelancer profile and reviews

## **SKILLS**

---

### **Python**

5+ years of experience in Python  
Used it for Scripts/Scrapping and Web Development initially  
Data Analysis and Machine Learning  
Libraries – Numpy/Scikit-Learn/Matplotlib/Scrapy/Request/Beautifulsoup/Seaborn/OS/OpenCV

Used Librosa,FFMPEG and Pyaudio  
PIL for Image Processing  
PDF Processing  
PytoGUI and Selenium for Automation  
YFinance for Finance and Stock Market

Tkinter for Apps  
Experience with PowerBI

I've used GPT and Llama models  
Tensorflow for Deep Learning

Yolo for Object Detection  
Used OpenCV for Face Detection & ChatGPT

## **React**

3+ years of experience in React  
React and MERN preferred for Frontend  
Development  
Experience with React Hooks and React Libraries  
Experience with SPA and NextJS

## **PHP/Wordpress**

10+ years of experience in PHP/Wordpress/Mysql  
  
Experience with Wordpress/Woocommerce  
Theme and Plugin Development  
Laravel and Codeigniter  
Mysql and Database

## **Other Experience**

Experience with OpenClaw, Claude  
Code, Codex, Antigravity  
Experience of using Huggingface & Roboflow  
pretrained models  
Git & Github  
Experience querying large analytical datasets using  
SQL  
Experience with Shell & Bash commands  
Experience with server setups  
Familiarity with Pinecone and Vector Databases  
Familiarity with AWS, Azure & Cloud Concepts  
Familiarity with Docker, Jenkins & CI/CD Concepts  
Experience with Video Gen tools like Kling, Sora & Veo  
Experience with Image Gen tools like  
Leonardo, Midjourney, Nano Banana & ImageGen

Experience with HTML/CSS/Bootstrap/Tailwind CSS  
VanillaJS/Jquery

Shopify  
Photoshop and Illustrator  
Progressive Web Applications & Chrome Extensions  
Adobe XD to HTML and Figma  
Responsive Web Design with Bootstrap/Flexbox/Grid  
Flutter and Mobile App Development  
Git and Github  
Familiar with CI/CD tools like Jenkins  
Familiar with AWS and Azure Cloud  
Linux Shell/SSH/Putty  
API – JSON/XML/Soap/Jsonp/Oauth/JWT  
Elementor & Theme Builders  
Understanding of SEO Principles  
Wordpress Plugins/Shopify Apps

## **COURSES & CERTIFICATIONS**

---

**Intermediate Python** - Datacamp

**Supervised Learning with scikit-learn** - Datacamp

**Python Toolbox** - Datacamp

**Cleaning Data in Python** - Datacamp

**Web Scraping in Python** - Datacamp

**Unsupervised Learning in Python** - Datacamp

**Introduction to AWS** - Datacamp

**Object-Oriented Programming in Python** - Datacamp

**Regular Expressions in Python** - Datacamp

**Python** – HackerRank

**Intermediate SQL** – HackerRank

<https://www.hackerrank.com/profile/vijeetdeliwala>

**Python** – TestDome

<https://www.testdome.com/certificates/3bc1be0e4e774ccfaa18d57fe7871de8>

## **React** – TestDome

<https://www.testdome.com/certificates/170f6ad422664e8e808ae3c162384426>

Its difficult to put everything you know into a Resume as over the 15 years,I've learned so many things

---

I'm fascinated by interesting things and Projects and curious to learn new things over time

Although I've not explored C++ and Java much – but one thing I've learned over time is that language is never a barrier – I've used C++ and Java Libraries successfully in my Python and PHP Projects

I've combined my Chess knowledge and Computer skills to create wonderful Projects one of which is Judtho and other was Live Chess Website

I try to explore interesting Projects on Github such as Udemy Downloader,Fast RNN Mask Detector, Chatbots and more..

Always try to keep up with latest technology – good in Prompt Engineering – using Prompts correctly to get the best of ChatGPT,Gemini,Perplexity,Meta and Copilot

## **OTHER INTERESTS & HOBBIES**

---

**Chess – Internationally RATED Chess Player**

**Cricket**

**Movies & Web Series**

**Music & Events**

**Stock Market & Finance**
